

Dear David,

I know you are very busy at the moment, but I just felt I needed to say a MASSIVE “THANK YOU”. Thanks to you and the course you recommended my life has changed, and is continuing to change (for the better!) on a daily basis. I have to admit, when I first bought the Quantum Gift course I was sceptical to say the least – I literally bought it out of desperation. I had debt collectors knocking on my door and was at a point where I had actually stopped opening my mail because I seemed to be getting nothing but bills and final demands. I felt lonely, isolated, and like life was no longer worth living. It really was a last resort. I wish I’d been able to do the course years ago – the impact on my life after even these few weeks is absolutely phenomenal! I can’t explain how, or why, but everything has completely turned around – my failing business has suddenly picked up and for the first time in just over 3 years I’ve started to make a profit. The long term implications purely from a business sense are incredible now – even my bank has started asking me what it is I’m doing! But more incredible than that, “orders” that I started to place a matter of weeks ago, have started to come to fruition too..... I have received cheques through the door that I would never have even thought I would get (and we’re not talking hundreds..... Bigger!!!) Also, and I really am baffled by this, I am pain-free for the first time in 9 years..... I had a car crash in 1998 and 2 bones in my back were broken as well as my knees being damaged, and I have been pain free (without needing to take my medication) for weeks now. Friends I had lost touch with years ago are now “popping up” from nowhere. None of this, I now know, is coincidence. I’m still getting my head round the concept of The Quantum Gift, but I no longer question why it works, I just know it does!

I know I’ve waffled on, but I just felt I needed to say thank you somehow, although I can’t express exactly how thankful I am in simple words – this course has had the single biggest impact on my life above and beyond any thing else I have ever known.

If there is ever anything I can do for you, you only have to ask. I don’t feel the money I paid for the course is anything near enough payment for what I have received in return. (And I’m sorry I had any doubts in the first place as to the worth of the course!)

I will be forever in your debt.

Take Care David, I’d say “good luck” for the future but I know you don’t need it!

Beverley and family.
